

KENBRI HRU

### KENBRI Big Flow Systems

The Kenbri Big Flow Systems are designed for first responses during full surface tank fires or any other large scale infernos. The Kenbri Big Flow Systems are designed for easy handling and set up and are quickly deployable for operation.

### The Kenbri Hose Retrieval Unit (HRU series)

The Hose Retrieval Unit is a vehicle designed with a custom built hydraulic driven Hose Reel retrieval system. The Hose Reel retrieval system allows for parallel retrieval of deployed hoses after usage. The principle of this system is based on the safe retrieval of hoses in a structured and orderly manner. Each reel section is provided with an hydraulic drive to ensure easy and quick retrieval around corners and bends. After retrieval the hoses can be offloaded into the Hose Storage Unit in a safe area on a stable and safe manner without moving objects and risks on injuries for personnel.

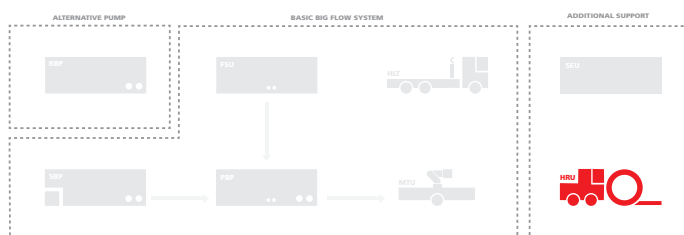

### KENBRI Hose Retrieval Unit - HRU

#### General information

The Wheel Loader Hose Retriever is available in different types of models depending on diameter sizes of the hoses. The hose sizes vary from 6" hoses up to 12" hoses with a length of 100 meter per section.

#### Vehicle

Make:	GiANT
Type:	V4502T X-tra
Engine:	Kubota 4-cylinder water cooled
Power:	33 kW
Lift capacity:	2,880 kg
Fuel tank:	±50 liter

## Models

---

Type: HRU6  
Make: Kenbri  
Hose size: 6" Flat Fire Hose  
Storage capacity: 2 x 120 meter  
Features: Independent section control  
Control: Joystick and remote  
Dimensions: 5,8 x 1,2 x 2,3 meter  
Weight (minus hoses): 3,800 kg

---

Type: HRU8  
Make: Kenbri  
Hose size: 8" Flat Fire Hose  
Storage capacity: 2x 100 meter  
Features: Independent section control  
Control: Joystick and remote  
Dimensions: 5,8 x 1,4 x 2,3 meter  
Weight (minus hoses): 3,800 kg

---

Type: HRU10  
Make: Kenbri  
Hose size: 10" Flat Fire Hose  
Storage capacity: 2x 100 meter  
Features: Independent section control  
Control: Joystick and remote  
Dimensions: 5,8 x 1,6 x 2,3 meter  
Weight (minus hoses): 4,000 kg

---

Type: HRU12  
Make: Kenbri  
Hose size: 12" Flat Fire Hose  
Storage capacity: 2x 100 meter  
Features: Independent section control  
Control: Joystick and remote  
Dimensions: 5,8 x 1,8 x 2,5 meter  
Weight (minus hoses): 4,500 kg
